***Pictured:** Kick off your sandals and explore the Bahamian lifestyle at The Abaco Club, where shoes are optional and relaxing is mandatory.*

Barefoot Beauty

Walking down to Flippers Beach Bar in nothing but a bathing suit is how every morning at The Abaco Club can start. See the sunrise over a slice of Bahamian surf before setting off for the front nine or the shady side of a beach umbrella.

A Donald Steel and Tom Mackenzie-designed course, Scottish-style links meet Caribbean climate on this course's oceanside greens and palm-lined fairways. The Abaco Club offers a lifestyle—dubbed barefoot luxury—that includes days at the spa, world-class cuisine and experiences only offered by the island life. Although primarily a development property, the island's cabanas, cottages and estate homes are available for rent and are at their cheapest in September, making it a perfect spot for a farewell to summer and a chance to discover what life as a club member could be. Topping it off, The Abaco Club's state-of-the-art practice facility offers instruction from PGA Professionals year-round, so you can take home a new swing with that tan.
